

ETPAK

Presentation

August 2025

In 2017, after 25 years experience in Oil & Gas sector as an employee running the operations of a well reputed services company, providing logistics supports services onshore and offshore, drilling rig moves, manpower and civil works in desert and other remote areas, Fethi Bel Hadj Yahia decided to develop his own business.

During these years, services were provided to the major operators in the country such as British Gas, Pioneer, OMV, ENI, Lundin, PA Resources, Petro Celtic, Storm Ventures, 5 years were spent in Libya as branch manager between 2004 and 2009, providing services for RWE, Total and Nippon, which made the large experience gained very diverse and rich allowing a broad knowledge of work standards in the sector.

A collaboration was agreed with Entreprise Travaux Public Adel Kadi a privet company based in Tataouine working mainly for the state, building roads, the aim of the collaboration was to join Fethi Bel Hadj Yahia large experience and Adel Kadi equipment's and facilities available close to the desert area, to develop the business in the Oil & Gas sector.

As a result of the said collaboration, ETPAK was created in December 2017, registered in Tataouine, In June 2018, ETPAK capital was increased to 340 000 TND.

In July 2019, Fethi Bel Hadj yahia bought the shares of Adel Kadi and the collaboration was ended to open a new horizon for ETPAK development.

History

ETPAK philosophy is based on the following:

- ✓ Listening is the Key to Understanding
- ✓ We deliver what we promise
- ✓ Create and maintain positive employee and customer relationships
- ✓ Made available our expertise and all resources to complete our tasks in time and cost-effective manner

People – are at the heart of our success. We recognise the value of our people and are committed to providing the working environment, encouragement and personal development to achieve our goals.

Performance – getting it right first time & every time. We are passionate about safely delivering excellent quality customer service. We embrace teamwork, individually and collectively assuming responsibility for delivering the highest standard of service.

Partnerships – we listen to our customers and build relationships to understand their needs.

ETPAK has the expertise, the knowhow, the resources to deliver the following services

Road Construction: ETPAK has a large experience in roads construction and maintenance either black top roads in urban or off-roads in remote areas, we have our own Rock Crusher to produce the required materials for road foundation and base layers in remote areas and we have our own equipment for asphalt coating.

Earth Works: ETPAK is equipped to perform any top soil clearing, right-of-way, earth cutting, excavation, backfill, selected materials extraction, loading and transport, materials layers application, levelling watering and compacting works, survey works.

Various Networks: ETPAK is able to achieve projects liaised to Residential, Industrial and Commercial real estate in urban areas including the parceling, roads and the various networks including optic fiber, fresh water, used water, power, lighting...

Remote Facilities: ETPAK is able to deliver for remote areas a turn key accommodations, offices, storage and workshop facilities according to local and international standards, made from temporary or permanent buildings including earth work, fencing, access control system and all required networks such as potable water, used water, electricity, telephone, internet and lighting.

Civil Works: ETPAK is providing civil works for the construction of drilling and production well sites, these works includes concrete and reinforced concrete works required for rig foundation other equipment foundation, drainage ditches, septic pits, fences, protection walls, roads construction, culverts installation ...

Our Business

Logistics Support Services : ETPAK has the experience to provide its clients with the required logistics support for their exploration, drilling, and production operations both offshore and onshore. These services include :

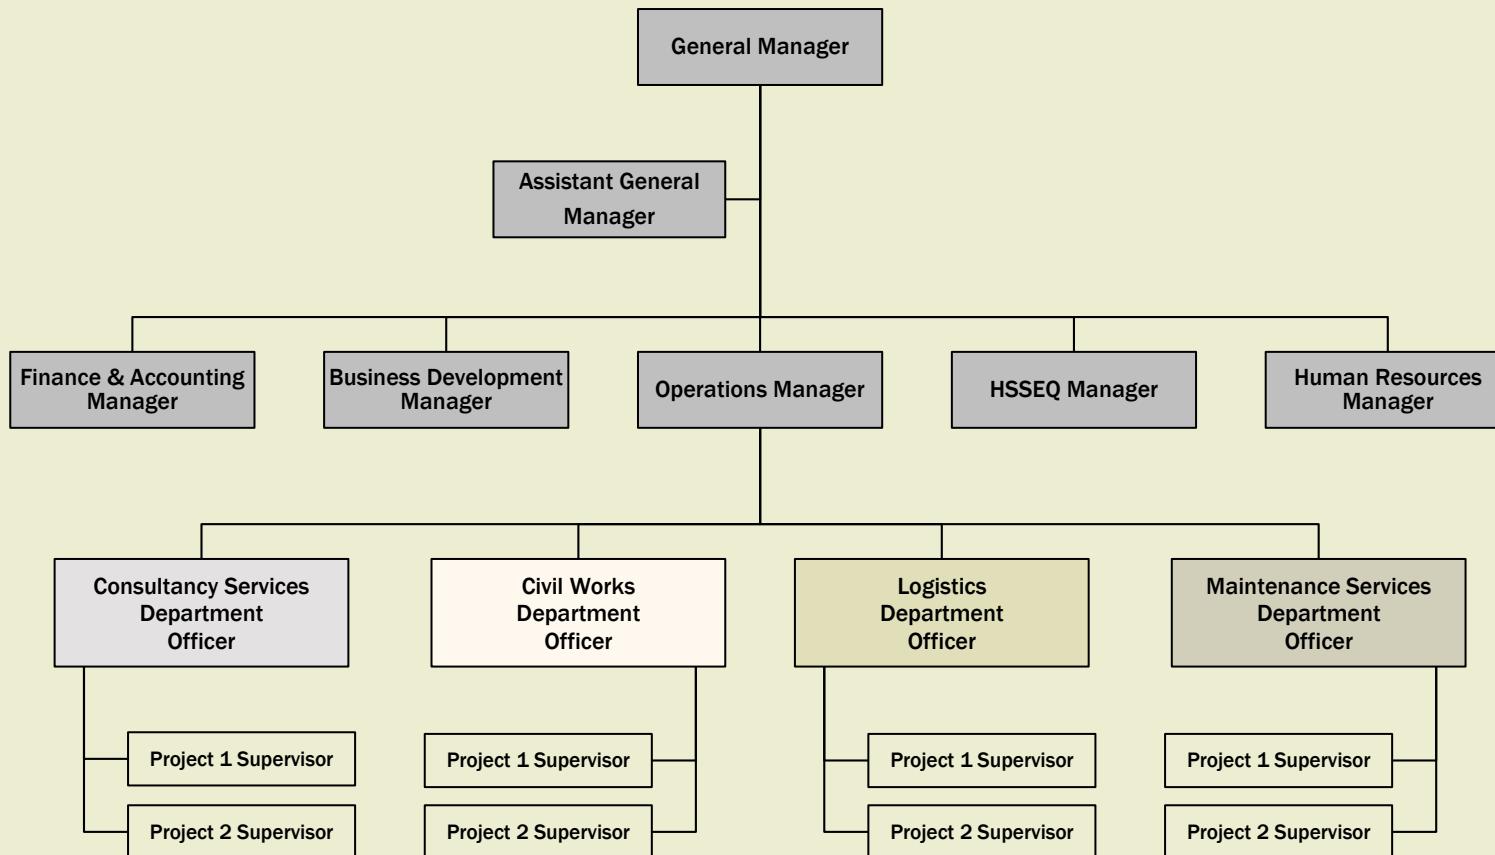

- The set-up of fully equipped logistics support base facilities,
- The qualified logistics support team, including management, coordination, administrative, warehouse, and yard personnel.
- The international and local purchasing services, freight forwarding, and customs clearance services.
- Rig move services.

Consultancy Services: ETPAK is able to allocate qualified staff for its client's exploration, drilling and production operations both onshore and offshore, the allocated personnel will occupy the positions agreed to manage the technical, administrative, HSSEQ, maintenance aspects of existing facilities and to manage the construction of new facilities, extension and upgrading of existing facilities.

Facilities maintenance: ETPAK is able to help its customers to keep their facilities and equipment functioning as intended, by providing a proactive and reactive maintenance program including corrective, preventive and predictive maintenance using a purpose-built software program either provided by customers or by ETPAK.

Our Business

Organization

Health, Safety, Security and Environmental Policy

Our company adopts a policy of risk prevention in accordance with the regulations and the HSSE standards in force as well as the best practices in our field of activity, in order to preserve the health and the safety of the personnel, the contractors, the neighbouring communities, Facilities, property, environmental protection and sustainable development.

We are committed to continuously evaluate, verify and improve our services and procedures in order to permanently guarantee the safety of people and facilities, quality in carrying our activities by:

- Continuous improvement of HSSE culture.
- Target "ZERO ACCIDENT".
- Compliance with HSSE standards.

To implement our HSSE policy, we must:

- Respect the HSSE standards in general and those of our customers in particular.
- Consider health, safety, Security and the environment, as an essential requirement, for both our staff and contractors, in the performance of their duties.
- Ensure the communication and understanding of this policy and its principles by all our employees and contractors.

This policy applies to all our activities. As such, all our staff and contractors must make every effort to implement this policy rigorously.

General Manager

Felicia B. L. Kwarteng

HSSE Policy

Alcohol and Drug Policy

Our Company wishes to offer its employees a healthy and pleasant working environment. It is recognized that the use of alcohol or drugs can have a very adverse effect on the health and safety of an employee and greatly disrupt the employee's job performance, and as a result:

- All employees must be able to perform their duties when they come to work and remain fit during their entire working day. This implies that the faculties of employees must not be impaired by alcohol, illicit drugs or prescribed medications. If an employee is to take prescribed medications, these medications should not prevent him / her from performing the duties of his or her job competently.
- Employees in the workplace must not be in possession of alcohol, illicit drugs or products used in the preparation of drugs.
- Possession, use or sale of alcohol, drugs and products used in the preparation of drugs is prohibited on Company property and in organizational vehicles.

Violation of the policy

- If there is reason to believe that an employee's performance at work is diminished due to alcohol, illicit drugs or prescribed medications, or that the policy is violated in any way, the Company has the right to investigate and to take appropriate measures, which may include disciplinary action.
- The Company will distinguish between conduct that may properly be considered a disease or disability, and conduct that is not related to an illness or disability.
- In the event of illness or disability, the Company intends to work with the employee for his rehabilitation, in accordance with the human rights legislation.

Any questions concerning the content of this policy or its interpretation should be addressed to senior management.

General Manager

Alcohol & Drug Policy
